

Smart Leasing

The leasing solution gives the 100% right colour in less than two minutes, no need for a colour expert.

The colour scanner and the PC have three unique numbers including the activation code.

All the four numbers identify the security for the leasing agreement.

Its never been easier to getting started, we call it Smart leasing,

■ From € 299 a month

Is leasing something ?

A nHBC system is not just a simple tool, it's a high-end complete solution.

We are providing our customers an easy leasing concept for a long time investment in a competitive and, easy way.

By ordering an HBC system colour scanner and the programme on Leasing basis, you get a free trolley XXL and training

We call it a "ALL IN ONE SOLUTION" FOR LESS THAN € 299 a month.

€ 299 a month

Final customer price

System type	Repair application	Repair price	Repair cost	Repair time

■ It's pay back time

System Break even

The Smart Repair implementation costs and the investment will be recovered very quickly.

The average number of repairs to be done to reach a budgetary breakeven point will appear from the graphics below.

Type of repair	No. of repairs
Fabric repair	15
Plastic, leather and vinyl	16
Spot repair	20-30
Windscreen repair	25
Rim repair painting	10
Rim repair Polishing	10
Caravan repair	20
Dent repair	20
Odour	10

*System breakeven prices are based on HBC system recommended sales prices.

Repair capacity in system a month	Income 10 repairs a month	Income 20 repairs a month	Income 30 repairs repairs	Brake even
